Minute by — do. — Can discover nothing in the papers submitted to prove that either the Port of Cuddalore or of Porto Novo has recently deteriorated. — Thinks that from the description given of them, they appear to partake of the universal feature of all the creeks, or mouths of rivers along the Eastern Coast of the Peninsula, — & that it yet remains to be tested whether that natural feature can be overcome by art. For reasons stated is of opinion that nothing should be done at either of the Ports alluded to until the result of a similar project at Negapatam is ascertained. Has no objection to the Plans and Estimates for one or both being called for, — and as the outlay he concludes, is beyond what Govt. can take upon them to sanction, — proposes that the whole question be laid before the H.
